

Subject: September Update from Sigma Chi Wisconsin – Alpha Lambda Associate Chapter

Dear Alumni,

With the fall semester underway, I'm excited to share our first monthly update of the 2025–26 school year. The men of Sigma Chi at Wisconsin are already hard at work toward a successful semester of recruitment, campus involvement, and, most importantly, our final steps toward full reinstallation as the Alpha Lambda Chapter.

Recruitment & Brotherhood Growth

Our fall recruitment officially began with tabling August 29. We've had strong interest from potential new members and remain focused on building a values-driven brotherhood. With the foundation laid over the past year, we're confident this fall will bring another strong pledge class.

Chapter Operations & Goals

Reinstallation Petition: We are in the final stages of gathering documentation and letters of support required for our petition to Headquarters. Thank you to the alumni and province leaders who have already stepped up to assist.

Brotherhood Development: Committees are already active this fall, and we're placing a major emphasis on leadership development, scholarship, and communication, which are key pillars to long-term chapter health.

Housing Outlook: Discussions remain ongoing with the House Corporation as we look toward the 2026–27 academic year. Alumni support will be crucial to securing the return of the Alpha Lambda house for our brotherhood.

Philanthropy & Community Service

We're proud to share that we have already scheduled our first blood drive on September 5, partnering with the American Red Cross through Sigma Chi's national initiative. This marks the beginning of a renewed commitment to philanthropy and service, and we are eager to continue building a strong presence on campus and in the Madison community.

Alumni Engagement

Your continued involvement and encouragement remain a cornerstone of our progress. Along with these monthly updates, we will also be sending our own chapter newsletters this year to keep you connected with our progress and events. We also look forward to alumni gatherings this semester and will share more details soon.

The Alpha Lambda legacy is alive and well on campus, and with your support, we are closer than ever to full reinstallation. Thank you for your continued guidance and commitment to ensuring Sigma Chi thrives again at Wisconsin.

Sincerely,
Biagio Gargano

Consul – Sigma Chi Wisconsin
